The Office of English Language Acquisition (OELA), knows how important it is that districts and schools have access to resources that recognize the unique learning profiles and needs of English learners in order to facilitate their education during unplanned school closures.

These resources are intended for school personnel and institutions of higher education to improve distance learning and the support of English learners and their families during school closures. All resources are free. Additional resources will be added, please check back periodically. To submit resources for consideration, please complete the Remote Learning Resources Submission Form below.
